THE CLASS OF '94

**With over 400
students, the Briefing
Course is booming.
It's the largest roll call
in history!**

THE BIG, BOOMING BRIEFING COURSE IS THE TALK OF SCIENTOLOGISTS in Los Angeles right now, something ASHO is very proud of.

Announced by the Executive Director International, Captain Guillaume Lesèvre, to 6,000 SCIENTOLOGISTS at Auditor's Day (see story page 5), "The SAINT HILL™ Special Briefing Course at ASHO is

continued on page 2

The Workability of Scientology

by L. Ron Hubbard

The following LRH article first appeared in THE AUDITOR #1 and is being brought to you again as we celebrate the 30th Anniversary of THE AUDITOR. In subsequent issues of THE AUDITOR we will republish original articles written by Ron for this magazine.

IT'S THE I TITLE THINGS THAT MAKE SCIENTOLOGY WORK. Not the big crashing reasons why the preclear's mind isn't perfect.

It isn't finding what's wrong with the preclear that really counts, it's the auditor's craftsmanlike attention to the little points of auditing that makes for big gains.

Just one effective, received acknowledgement that makes the preclear know he's been acknowledged may be worth a dozen processes!

An auditor becomes an auditor when he or she finds out that it's the basics that count.

And this can be very hard to teach. The auditor who is so sure that all the errors are explained by the condition of the preclear seldom gets results. And it's results that count. You can get results with Scientology and get them rather easily, too, so long as you know that (the way auditing is administered to the preclear is more important than the process run.

An auditor who consistently fails to

get results is always the auditor who is most sure that all the errors for failure lay with the preclear or Scientology, and never with the auditor's own basics.

How difficult it is to see oneself! How easy it is to blame the odier fellow.

When I first started to teach by self-appreciation of one's own auditing here on the Saint Hill Course, even the most veteran auditors were completely balked. They have surmounted this now, but it was a mighty high hurdle for a while. The saga of it was quite funny. I had the auditor give a session which was recorded on tape. Then I had the auditor listen to his own session to find out his or her errors in basics.

Well! You should have seen some of the early reports I got! I even did an HCO Bulletin to show what to look for, but to no avail! Some reports gave the session command by command.

Some gave all the preclear's errors. Some went Russianesque in "How horrible I am." But at first

nobody, just nobody, caught on.

Let me give you the example of the first test made to show what I mean. I taped a session noting needle action and condition of the preclear during session. Then I listened to the tape. Aid I found that every time the auditor had gotten a dirty needle or a bad reaction from the preclear, the auditor some minutes or seconds before had slipped up on his basics. In other words I found that these basic errors were causing all the bad preclear reactions.

I (bund that the auditor made the session always and the preclear never. The preclear got better because the auditor audited with smooth basics or got roughed up because the basics skidded a bit - a slip-up on an acknowledgement, an over-hasty command, a failure to let the preclear fully answer the question. Seconds or minutes later, a bad reaction appeared in the preclear.

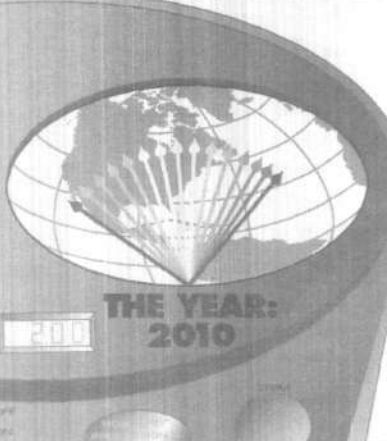

As a result of such studies of taped sessions, my complete conclusion is that it is only the auditor's handling of the session that makes the session. There is nobody and nothing else to blame. Because the preclear's bad reaction comes later than the auditor's skid in the basics, the auditor often does not connect his error with the preclear's reaction and thinks it is just the way the preclear is.

You'd think this would be easy to learn; but no, student reports continued to come in about their taped sessions that completely avoided the point. These reports described anything and everything except the auditor as cause.

Examples: "The session went badly
continued on page 2

GOOD NEWS! HOW IT CAN BE DONE.

PLANETARY CLEARING
If you were to just double the current number of auditors this year, then double the number next year and continue W "" double the figure every year for 16 years, we would then have enough auditors to clear the entire planet in just the following 12 years! The solution is for you yourself to become a real auditor and part of the elite corp of s» valuable beings.

Vital Statistics

WEDDINGS

Andrea Quail and Mike Wyszynski were married on June 25, 1994.

Matthew Radmanesh and Jane Schulte were married 23 July 1994 in Los Angeles, California.

Helena Pazzi and Frank Nicholas Barberi, both AOLA staff, were married on 3 June 1994 at AOLA by Reverend David Horwedel.

Randy Quick and Joni Ginsberg were married on 4 September 1994 at the Flag Land Base by Reverend Rick Alexander.

BIRTHS

Tova Elisabeth Anderson was born 8 January 1994 to Kirsti and Chuck Anderson of Dallas, Texas.

David Ross Cox was born 2 June 1994. His happy parents are Joan and Bill Cox of Mountain View.

Madison René was born 5 August 1994 to Bobbi and Steve Brunoehler, joining her brother Jed.

Alexander Mason James was born 4 June 1994 to Jane and David James.

DEATHS

Bill Steiner left his body on 14 June 1994. Bill founded the first mission in the San Francisco Bay Area and was one of the founding members of the San Francisco Org.

Rose Gomes Henkel left her body on 16 June, 1994. Rose was a veteran Sea Org member and wanted her many friends to know she will be back and on staff again.

Who, What A Where in the LA Area

Can you imagine walking out of the org straight into the local health food store and the person serving you is a SCIENTOLOGIST? Or you are sitting beside someone on the bus and you get in comm - to find out he's a SCIENTOLOGIST.

Los Angeles is the largest SCIENTOLOGY community in the world. In Hollywood, SCIENTOLOGY buildings are more than local landmarks, you can't miss them as you drive along the freeway or walk along Hollywood Boulevard.

This is what makes moving to Los Angeles for your SAINT HILL Special Briefing Course such fun. You know you won't be lonely - far from it! In fact you are going to make more new SCIENTOLOGY friends than ever before.

There are so many advantages to doing your SHSBC in Los Angeles, that we are providing you with a listing of them.

Need somewhere to live? Contact the Housing Officer at ASHO

He is there to ensure you are completely taken care of, even before you arrive. From the moment you start making your plans to start your SHSBC, he will be there to help you find accommodations that fit your needs. When you arrive you will be given an orientation pack which will introduce you to the city.

The ASHO Job Referral Service

Unable to go onto the Briefing Course full time?

You can do the SAINT HILL Special Briefing Course evenings and weekends while you work during the day. ASHO Foundation delivers the Briefing Course evenings and weekends for the working SCIENTOLOGIST, and provides its free Job Referral Service.

The local WISE® chapter can connect you up to WISE companies which will make the best use of your abilities. Or, better still, you can drop in and see Bridge Publications, Inc. located around the corner from ASHO and get trained up to sell LRH books. Or you can attend the weekly FSM seminars so you can start disseminating and getting people onto THE BRIDGE - and earn what you need for yours as well.

With more Scientologist-owned businesses in Los Angeles than any other city in the world, the Job Referral Service can help you find a job that fits your skills and qualifications so you can do your Briefing Course with us at ASHO Foundation.

make the right decision, and let the Manor take care of you, there is a special student rate.

Call the Manor now and ask about their weekend debut package. For reservations call (213) 960-3100. Ask about special rates for ASHO students. The Manor Hotel, 5930 Franklin Avenue, Hollywood, California 90028.

ASHO Referral Service for Housing and Childcare

Many SCIENTOLOGISTS contact ASHO to find out how to locate a place to stay when they come to Los Angeles for the Briefing Course. Or they wonder how to care for their children while they're on course. There's no need to worry!

Whether you are going to be at ASHO for two days or two years, ASHO housing referral service in the Department of Technical Services can help you find an apartment or house most suited to your price range and situation.

If you have children, ASHO also offers a childcare and school referral service.

Just contact the Director of Tech Services at ASHO today.

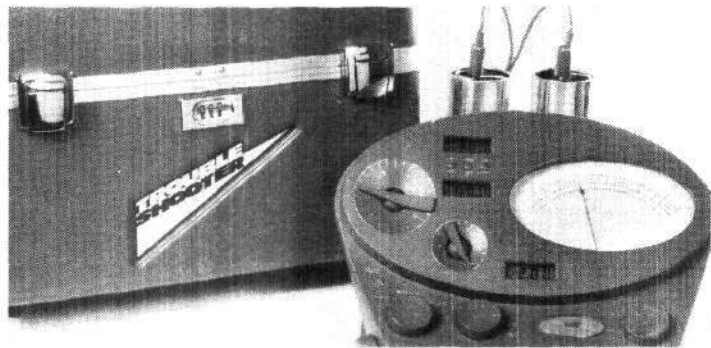

The L. Ron Hubbard Life Exhibition in LA

Visit the L. RON HUBBARD™ Life Exhibition. Over 30 exhibits each highlight a different area of LRH's accomplishments in numerous professions - aviation, exploration, fiction writing, philosophy, education, business administration, the arts, drug rehabilitation and more! On display are 1,817 different works by LRH - books, stories, articles, cassette lectures, videos and films - representing approximately 166,000 pages of material.

Open seven days a week, from 9 A.M. to 10 P.M., a tour of the exhibition takes about 90 minutes.

Come when you are in Los Angeles, and bring your family and friends. This is a great way to introduce people to the works of LRH. Arrange for a tour by calling (213) 960-3511.

Without these tools, clearing a planet would be IMPOSSIBLE...

Before Ron developed and began using an E-METER™, there was no way to travel down the timetrack and locate the exact incidents that kept man trapped for eons.

The SAINT HILL Special Briefing Course will give you a very thorough reality on this. Not only will you learn how to use the E-METER, you will drill until you are a complete expert when you graduate.

The MARK SUPER VII® was made to Ron's exact specifications for your auditor training, and for your own Solo auditing up THE BRIDGE to the highest levels of OT.

Along with your E-METER you need a Troubleshooter - comprising the 48 auditing lists which contain every point which can go wrong with a pc's case.

With these tools you can follow the closely taped path and make planetary clearing a reality!

Both the MARK SUPER VII and the Troubleshooter are available in a wide choice of colors. The MARK SUPER VII comes with a custom carrying case, admin shield, electrodes in six of the most common sizes, Solo dividers, leads, a charging chord and a set of calibration resistors.

Get your MARK SUPER VII and Troubleshooter today. You're going to need them. Contact the ASHO Bookstore Officer.

The Manor Hotel - ideal for Briefing Course students

The Manor Hotel has a lot of experience taking care of SCIENTOLOGISTS who come to Los Angeles for the Briefing Course. So much so, they offer a special service for students. This service allows you to share with other students and thus live economically in the safest environment in Los Angeles. It has many, many advantages. First of all, it is very safe and protected, and you are in a completely SCIENTOLOGY environment. Special student meals are provided for you if you want to eat at the Manor. You get daily transport to and from ASHO, for no additional charge. During your free time off course, you can relax and enjoy the many comforts of this SCIENTOLOGY environment.

As an SHSBC student, you will be a VIP from the minute you walk into the Manor. As a Duke of the Auditor Elite you will get red carpet treatment all the way. And, to encourage you even more to

We are experts at preparing you to go

Reasons to Do the Briefing Course

The Briefing Course is the only place where you can get all the tech to handle life.

To really become OT, it is necessary to have thorough knowledge of HOW the tech works as well as WHY. You get this knowledge only on the Briefing Course.

A Briefing Course graduate is an expert auditor and can have the best career there is - as a professional auditor.

Be part of the group that is ensuring the future of the SCIENTOLOGY religion

Your membership dues support the group that protects and defends the SCIENTOLOGY religion so that the technology will always be available to you.

Membership entitles you to many benefits and is vital for all SCIENTOLOGISTS.

Join Ron at his first lecture about past lives

Ron poses the question:
"Are we knocking on the door of the human soul?"

The new *Research & Discovery Series Volume 2* was released at this year's Auditor's Day celebration. This is the third in this new series which will continue to be published at a rate of one new volume every 6-8 weeks. If you haven't got your copy of *Research & Discovery Volume 3* yet, here are just a few of the compelling reasons you must get your copy now.

The first transcript of lectures LRH ever gave on PAST LIVES

As students continued intensive auditing with BOOK ONE, more and more instances of past life contact were coming to view. Student auditors were also running into past life incidents with their pes.

One such student originated to Ron that her preclear had suddenly run into a past life incident - with full perceptics.

LRH takes up this phenomena and tells students that he first ran into a past life incident in 1949 while doing research at the Naval Hospital in Maryland. And Ron goes on to describe exactly how that incident came to view.

It was during that discussion, which is documented in full in *Research & Discovery Series Volume J*, that Ron asked the question: "Are we knocking on the door of the human soul?" Of course, he later answered that question, and as a result we have SCIENTOLOGY.

You might also wonder what happens when someone contacts an earlier life in which he spoke a different language - this is all explained in the lecture *Standard Procedure and Accessibility*.

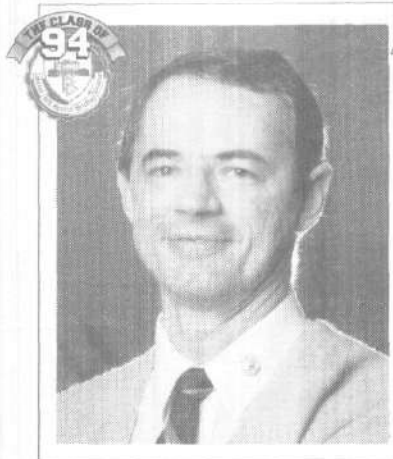

The first lecture LRH ever gave on the subject of ARC

This was on the 4th of August entitled *Relation of Affinity, Communication and Reality*. How did he discover the data on ARC? You will find out in this lecture.

Robert Aster, now on his Class VI Internship at ASHO, Technical Manager for Jet Propulsion Labs in Pasadena.

Ehalid Dinkane, chiropractor, and currently on Level O, enjoys the camaraderie that comes with being a part of the Class of '94, one of the Dukes of the Auditor Elite.

A dentist by profession and full time Briefing Course student, Dr. Darrel Craig is also a flying enthusiast who has built his own airplane.

Barbara Dakin, New OT VIII and Briefing Course student, has recently founded a new Los Angeles area OT Committee dedicated to getting new people up to OT.

Lara Dolan, the youngest of the Class of '94 is having great wins as the Briefing Course increases her ability and survival in all areas of her life.

CLASS OF '94

continued from page 1

booming with over 430 students on the course right now, which is the highest ever for any SHSBC anywhere."

Briefing Course students are very quick to point out that the size of the course is a testimony to the results of standard supervision:

"ASHO Supervisors are the best I've seen," one student told THE AUDITOR, "the Briefing Course Supervisors are a very special crew. They really know where to refer you to in the materials and the quality standards here are very, very hot. That's why it's a large course and a standard course."

Each week, at least 20 SHSBC® levels completions are announced at the popular PAC graduation in the newly renovated Lebanon Hall.

ASHO's SAINT HILL Special Briefing Course has literally taken over the entirety of the second floor of the building in which they are located, with a total of five large courserooms to accommodate all the students.

Seventy STANDARD TECH™ cassette decks are now available for students so

they can listen to the more than 400 of Ron's recorded lectures which are on die course.

Twelve Course Supervisors and four Course Administrators are on post to ensure that the supervision is the best.

The combined student points from the SAINT HILL Special Briefing Course are now well over one million per week and the Well Done Auditing Hours delivered by SHSBC students is hundreds of hours per week!

THE AUDITOR visited each courseroom to talk to the students who are never less than rave about their wins on course and in life.

"Doing the Briefing Course is miles above any university education," says California Institute of Technology scientist, Robert Aster.

"Doing the Briefing Course is miles above any university education," Bob told THE AUDITOR. "I helped save a life by auditing on the Briefing Course. No university could ever teach you that."

Robert is getting ready to do his New OT VII and knows that his

Briefing Course training will be priceless to him as a Solo auditor. "I want to really know that I am doing the right thing," he said. "If I have a floating needle, I want to know I can read through that floating needle. I don't want to be guessing in session. People deserve the best auditor they can get on Solo."

"I've made lifelong friends on die Briefing Course," says chiropractor.

Ehalid Dinkane, a chiropractor, told THE AUDITOR about the tremendous camaraderie which is building up in this huge Briefing Course. "Each student is concerned about how those around him are doing - and that is quite apparent to me now that I'm on Level O. I get a lot of assistance from other students and I've made lifelong friends on the Briefing Course," he explained. "You really are part of a group here."

"Most people want to be able to help others except they don't have the knowledge or experience to do it effectively," he said, explaining how the SHSBC increases a person's ability

to help. "The SHSBC gives you the knowledge and tools you need in order to be maximally effective in life. It makes you one of the best auditors in the world."

"I sold my dental practice and moved to LA full time - it's the best way to train."

Dr. Darrel Craig is a dentist with 30 years of dental experience. He felt that training was so important to his life, he is studying the SHSBC full time until he gets through.

"I sold my dental practice and moved to LA full time," Dr. Craig told THE AUDITOR. "I decided to train full time in order to get the benefit of concentrated training of LRH materials. The best way to train is definitely full time."

"The SHSBC is like being right there with Ron."

New OT VIII, Barbara Dakin, has been applying the data she is learning on the Briefing Course directly to her community in Los Angeles. "The SHSBC is different from any other

training I've had," Barbara told THE AUDITOR. "It's like being right there with Ron. As I progress through the SHSBC, I've noticed my ARC for all things around me increasing." Barbara recently founded a new Los Angeles area OT® Committee which is concentrating its efforts on getting new people onto THE BRIDGE® and up to OT

The youngest student in the class . . .

At 10 years old, Lara Dolan is the youngest in the class, or at least her body is. She has been on the Briefing Course for two months, is on Level A, and she loves it.

"I am doing the Briefing Course because I want to be an auditor. I really want to help people. I feel that this course is going to make me be the best auditor that I can be. And that is why I want to do it."

I think that every person should do the Briefing Course because it gives you the full training in life. I'm glad I'm doing it now because when I get older, it is going to be very easy for me to survive in life - whatever I am doing."

THE WORKABILITY OF SCIENTOLOGY

continued from page 1

because the preclear had had no sleep." "The session was slow because the preclear had a present time problem." "It was late in evening, and the preclear always has a high tone arm after 9:00 P.M." "The Instructor had given me another process, so when I tried to change the preclear got upset." "This preclear is always critical of auditors." "I had to end off because the preclear was upset"

Horrible. In no case was the auditor making the session. The session always depended on outer influences. Next thing I'd have heard, "We didn't have a good session because the stars were not in the preclear's favor."

Then some light began to dawn here and there and they started to make it. The students began to see that the failure of the preclear to progress was due to auditor errors, not preclear meanness. And these are the things the students learned:

The preclear's upset is traced back to a failure to acknowledge well, to chopping the preclear's communication, to a failure to give the preclear something to answer, to evaluation, to invalidation - not to the late hour or the position of Saturn.

An auditing session is made. It doesn't just happen. ARC breaks are constructed out of bad basics. Failures to improve a preclear begin with failures to do good TRs.

An auditing session gets wins only when the auditor is right there running it and running it smoothly.

The whole essence of auditing is not finding what is wrong with the preclear

and hammering at it. That's a medical-surgical approach, not a way to betterment. The essence of auditing is ARC handled and controlled by the auditor.

The auditor gives the preclear something to answer. The preclear answers it and when the preclear has answered it to his or her satisfaction, the auditor acknowledges it. That's auditing. That's why auditing works. That's why the tone arm moves. That's why the preclear gets better.

But that simple cycle can have a thousand ways to go wrong. The auditor gives the preclear something the preclear doesn't understand and can't answer. The preclear isn't permitted to complete his or her answer. The preclear answers fully and then never gets acknowledged for it and rambles on.

Those are the things self-appreciation of one's auditing should reveal.

Scientology has been getting fine results for a dozen years. In the hands of a good auditor, there are no big case failures. So it isn't the techniques.

It's this: What is a good auditor? A good auditor is one who knows Scientology and its techniques and who audits with all basics in. That's a primary thing we stress in training here at Saint Hill.

A good auditor gives the preclear something to do that the preclear can do, lets the preclear do it, and, when the preclear has, acknowledges well that the preclear has done it and promptly gives the preclear something to do. A good auditor never evaluates or invalidates. A good auditor understands what the preclear has said and never goes on until he or she has understood what the preclear said.

A technically skilled auditor can choose the very best processes, but unless these are run with all basics in, the wins are few.

That's why I started the Saint Hill Course - to make good auditors become good auditors who could also make good auditors.

It's been successful in the extreme here at Saint Hill.

But it's still a battle with basics.

For whatever else an auditor must know about the mind, however valid the technology, it takes plain down-to-earth go-to auditing to pull preclears through.

For the only reason any process works is the auditor's handling of the session and the basics of the auditing cycle.

Record some of a session you give, on tape. Note the rough spots for the preclear in the session while you give it. Play back the tape in private and spot exactly where and how each subsequent rough spot was caused by the failure of the auditor to observe basics.

Suddenly it shows up like a crashed airplane at a picnic. The auditor caused those rough bits the preclear went through - and the auditor caused them by failing to observe the simple basics.

There may be lots of other reasons, too, but these don't give the preclear a rough time. They only make the process progress fast or slow.

Preclears don't fail because Scientology doesn't work. Preclears fail only when Scientology isn't administered with all basics in.

L. Ron Hubbard
Founder

Letters to the Editor

This year is *The Auditor's* 30th birthday, and for our birthday gift we would like to hear from you! Tell us your wins, your personal stories, how you got introduced to SCIENTOLOGY or just the good news from your area. Write to THE AUDITOR Editor, American Saint Hill Organization, 1314 N. Berendo Street, Los Angeles, California 90027.

Dear Auditor Editor,

I called in to the org after reading the last issue of THE AUDITOR. I hadn't done any services for about 14 years.

I called into ASHO and talked with the Bookstore Officer. She was very friendly and invited me in. I came in and we talked. I met the Dissemination Secretary who brought me up to date on all the changes that had occurred over the last many years.

I decided to get back on THE BRIDGE and signed up for the full SAINT HILL Special Briefing Course. I'm now on my prerequisites for the course at ASHO.

But hold on, there's more. I had been working in a pretty suppressive environment. I had pretty much decided to quit as I wasn't

going anywhere but down. After being on service for a few days at ASHO I made the decision to quit the job and did. Now it looks as if I'll be hired tomorrow by a company that offers a real challenge in a real supportive environment.

I can tell that there are a lot of staff there that really care and want me to succeed. And they have got the tech that ensures that I will.

So, I'm back on the service lines of the org and am very glad that I am. I am happy about this as this is where I know I'll get trained as a real auditor, and I am back on THE BRIDGE again!

ARC,
Dan Duedeman,
Long Beach, CA

With over 430 students, ASHO (American Saint Hill Organization) in Los Angeles has the biggest Briefing Course in the world, (above) Students of the Briefing Course show their enthusiasm for their training, lined up in front of ASHO.

THE AUDITOR Journal is 30 years old! 1964-1994

The first THE AUDITOR was published in May, 1964. That means we are celebrating our thirtieth birthday this year.

RON WAS PERSONALLY INVOLVED IN PUBLISHING the very first Auditor. He wrote the articles himself and he trained up the staff so they knew how to get a magazine produced.

At that time, the SAINT HILL Special Briefing Course had been going for three years, and over two hundred auditors had been trained and returned to their areas to open missions and orgs.

One of the success stories published in that original Auditor magazine is from someone who is often seen at CELEBRITY CENTRE® International, now a Class VIII Auditor: Mario Fenninger, internationally renowned concert pianist.

We thought you would like to read part of that success from Mario:

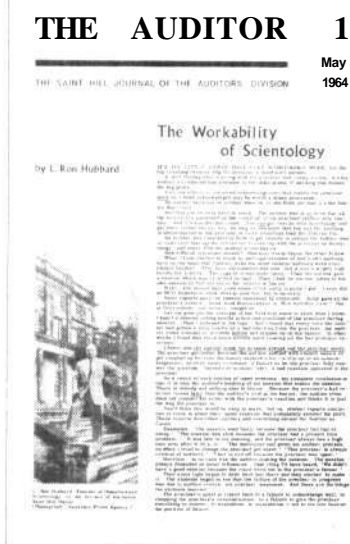

"I disseminate SCIENTOLOGY as much as possible and have booked a number of persons for the SCIENTOLOGY 0 and 1 course which will include a co-audit. My

dissemination of SCIENTOLOGY takes, many forms, from direct talks about SCIENTOLOGY to a piano recital in which I mention casually that an artist is basically a communicator and that SCIENTOLOGY is a science of communication." Mario Fenninger, Lausanne, Switzerland.

Mario's success demonstrates the power of training and the results it gets. Ron said many times that auditors disseminate, pre-clears don't.

When THE AUDITOR No. 1 was published,

Phyll Stevens had only been a student at Saint Hill for two months. Today, she is well known internationally as the Commanding Officer of the Continental Liaison Office in ANZO. In the first Auditor Phyll said, "Ron's lectures of course are our inspirational highlights and each new bright simplicity he gives us helps to dispel more of our foggy complexities. The only regret is that more of our friends and fellow SCIENTOLOGISTS aren't here to

The first issue of THE AUDITOR featured Ron's article The Workability of Scientology, republished in this issue of THE AUDITOR.

share the discoveries with us." Phyll's daughter, Chris Montgomery, is the Briefing Course In-Charge at ASHO and is there to ensure that students get the tech straight from Ron, just as the original Saint Hill students did.

The SCIENTOLOGY expansion that has occurred over the last 30 years is in no small part due to the hard work of the original Briefing Course students, such as these two.

THE AUDITOR carried the addresses for the three official SCIENTOLOGY organizations in North America.

We now have 47 Class V orgs, five (:<cl)i iiv (centres, four Sea Org orgs, the Flag Service Organization and the Flag Ship Service Organization aboard the FREEWINDS®, as well as 200 missions and 670 DIANETICS" co-auditing groups - an expansion rate of well over 100 times.

Test Your Knowledge of Basics

The following is a quiz which tests your knowledge of the basics of DIANETICS. After you have answered the quiz, turn to page 11 to see how you did.

Check the box of the answer you feel is correct.

1. Running pleasure moments:
 - A. Reduces engrams ☐
 - B. Increases perceptions ☐
 - C. Gets pc in comm with auditor ☐
2. What is the most aberrative engram a person could have?
 - A. Sympathy engram ☐
 - B. Conception engram ☐
 - C. Birth engram ☐
3. What is an amnesia trance?
 - A. Unconsciousness ☐
 - B. Recall ☐
 - C. Hypnosis ☐
4. Longevity of life is dependent upon:
 - A. Health ☐
 - B. Continuous affinity ☐
 - C. Good education ☐
5. The worst kind of circuitry working in the mind is:
 - A. "I am no good" ☐
 - B. "I don't want to talk" ☐
 - C. "Control yourself" ☐
6. What factor is most aberrative in today's society?
 - A. Unevaluated data ☐
 - B. Phrases which destroy reality ☐
 - C. Inabilities to learn ☐
7. A valence is,
 - A. The same thing as a demon circuit ☐
 - B. A carbon copy of another human being ☐
 - C. Something someone imagines ☐
8. Punishment is bad only when,
 - A. It installs engrams ☐
 - B. It keys a person in ☐
 - C. It disciplines a person ☐
9. What is the basic-basic?
 - A. Conception ☐
 - B. The earliest engram on a chain ☐
 - C. Earliest moment of pain or unconsciousness ☐
10. You would only force a pre-clear in auditing when,
 - A. Never ☐
 - B. The pre-clear is keyed in ☐
 - C. The pre-clear is in the middle of an engram ☐
11. What is the only factor in a case that can prevent the file clerk from being totally infallible?
 - A. Demon circuits ☐
 - B. Restimulators in the environment ☐
 - C. Auditor's Code breaks ☐
12. Which of the following Auditor's Code points was stressed in July 1950?
 - A. "I promise to grant beingness to the pre-clear in session." ☐
 - B. "I promise not to invalidate the pre-clear's case or gains in or out of session." ☐
 - C. "I promise to refuse to permit any being to be physically injured, violently damaged, operated on or killed in the name of mental 'treatment'." ☐

(See page 11 for results)

R&D

SAINT HILL

New command team at ASHO

The new ASHO command team. Heading up the ASHO orgs are Commanding Officer ASHO Day, Lt. Rich Cohen, and Commanding Officer ASHO Foundation Lt. Tommy Gustafsson.

A new command team of veteran Sea Org executives has been working hard to create the largest SAINT HILL Special Briefing Course in history. Heading up the team are 22-year Sea Org veteran, Lt. Richard Cohen, the new Commanding Officer of ASHO Day and 20-year staff veteran, Lt. Tommy Gustafsson, the new Commanding Officer ASHO Foundation.

Since early 1994 International Management has been sending top Sea Org veterans to take command positions in Continental Sea Org management units and Sea Org service orgs. This was done to provide more trained veteran personnel at each echelon of command to speed our expansion and improve service to you. Since the new command team arrived in ASHO, two new SHSBC courserooms have been added. And there are now twelve Course Supervisors for the Briefing Course alone, plus four trained Course Administrators and a full time Tech Films In-Charge to show the Technical Training Films. With over 430 SCIENTOLOGISTS enrolled on the SHSBC, graduates are being made at a very high rate. Services at ASHO include the HUBBARD® Guidance Center which specializes in OT Preparations and OT Eligibility auditing. ASHO also delivers Solo Course Part One and Two, and for those who didn't go Clear on NEW ERA DIANETICS® POWER processing. SCIENTOLOGISTS come from all over the United States to get set up for their OT levels. Planning has been approved to completely renovate ASHO to create an ideal training environment for Briefing Course students. The SHSBC courserooms will be greatly enlarged to accommodate 1,000 students a day. Renovations are already in progress and are targeted to complete before the end of the year.

Join the Dukes of the Auditor Elite

"The Saint Hill Special Briefing Course exists to train superlative auditors. This is its whole purpose!" - L. Ron Hubbard

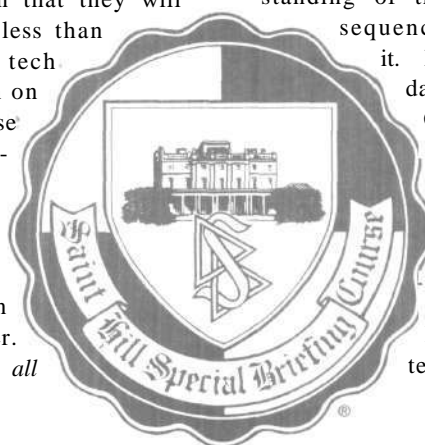

In March 1961 the doors of Saint Hill Manor were opened to students from all over the world. At that time, Ron wrote, "A very few selected persons in Scientology may be trained, briefed and audited at Saint Hill until further notice." With a small group of handpicked SCIENTOLOGISTS, so began the legendary SAINT HILL Special Briefing Course.

Today, the SAINT HILL Special Briefing Course, the most comprehensive course in SCIENTOLOGY, is available to SCIENTOLOGISTS who desire to become part of what Ron called the "Dukes of the Auditor Elite" - the Saint Hillers!

To have full command of a session, an auditor must have a complete understanding of the tech. Auditors who do the Briefing Course have made the decision that they will settle for nothing less than having all the tech. Auditors who train on the Briefing Course gain a full command of the technology.

On the Briefing Course, you study all of Ron's tech in chronological order. This includes all

DIANETICS and SCIENTOLOGY books, all technical bulletins and all of the SAINT HILL Special Briefing Course lectures. This enables you to gain a full understanding of the tech in the exact sequence that Ron developed it. No gaps, no missing data.

Once you've completed the theory study, and drilled the auditing procedures until you know them cold, you are ready to put into application the largest body of LRH tech available anywhere.

With this technology under your belt, you'll possess the ability to handle any of life's situations.

The SAINT HILL Special Briefing Course consists of sixteen separate check sheets, Levels A through P. Each has an average length of just over three weeks. These check sheets can be completed individually or, ideally, you can study the entire course intensively until YOU become a fully certified Class VI Auditor - one of the Dukes of the Auditor Elite.

Far beyond any university education, training on the Briefing Course provides you with a degree in life.

Get the full scope of the tech - enroll on the SAINT HILL Special Briefing Course at the American Saint Hill Organization.

LL NEWS

International Speakers Honor PAC Auditors

International Management speakers arrived in Los Angeles on the morning of 10 September from Clearwater, where they had just held Flag's Auditor's Day. They appeared at the Shrine Auditorium that evening to address SCIENTOLOGISTS gathered in celebration.

Mr. Guillaume Lesèvre, Executive Director International, was master of ceremonies and opened the evening's activities. "Los Angeles is the area with the greatest number of auditors in the world, so we wanted to come and salute all the auditors here and celebrate Auditor's Day with you."

Mr. Lesèvre stressed the role of the auditor in achieving our humanitarian objectives:

"While we celebrate the auditors tonight, their importance to the salvage of this civilization cannot be underplayed."

To begin the evening's celebration, all auditors in the audience were acknowledged by asking them to stand up as their classification was announced. ASHO graduates of the SAINT HILL Special Briefing Course were well represented.

Executive Director International announced Paul Dutenhaber and Barbara Wright, two new Class Vis who had just completed their Briefing Course the week of the event.

Research & Discovery Series Volume 3 Released by Marketing Executive International

Mr. Ronnie Miscavige, Marketing Executive International, briefed the audience on the miraculous wins that auditors on the front lines have been having at a grass-roots level using the tech, each of them a testimony to the power of the tech in the hands of anyone who applies it standardly. As Mr. Miscavige told the audience, "What is happening here is an exact repeat of what happened in 1950 when Dianetics was first released."

As a special Auditor's Day release, Mr. Ronnie Miscavige announced Research & Discovery Volume 3.

The volume contains 26 lectures which Ron gave to the students of his first DIANETICS Auditor Course between July and

August 1950. The book includes many transcripts of Ron answering questions that students had after they had just started getting their feet wet with DIANETICS procedures.

Marketing Exec Int noted the extraordinary parallel between the questions that students were asking then and now, "A few moments ago I was telling you about the grass-roots BOOK ONE boom we have going in present time. As those students audi-

every SCIENTOLOGIST should pick up a copy of Research & Discovery Volume 3 and begin reading it. "If you do that," he said, "then I guarantee that once you begin reading, you will not be able to stop. The route to OT is through having a complete knowledge of all of the tech of SCIENTOLOGY. Through a study of these volumes, that knowledge is now available."

Senior C/S International announces special technical release

Mr. Ray Mithoff, Senior C/S Intel national, covered technical news and announced very special releases that directly concern auditors.

"From my post, there is nothing more important than you, the auditor," Mr. Mithoff said. "LRH gave me the hat of being your immediate senior - the direct senior of all auditors in the world. It is my job to give technical orders and corrections to help every auditor be a screaming success."

Mr. Mithoff covered the recent wins that had been achieved through the application of SCIENTOLOGY Expanded Grades, and how their standard delivery is resulting in greater numbers of people moving up the Grade Chart to Clear and

OT!

He then announced the release of the Expanded (Wades References Handbook, which will assist auditors who are delivering these miraculous processes.

The Expanded Grades References Handbook contains a total of 1,616 pages of LRH™ tech, including 17 lectures - 5 of which are not found in the materials of either the Academy Levels OR the SAINT HILL Special Briefing Course. This handbook is the comprehensive reference tool on the Expanded Grades for any auditor, C/S, Cramming Officer or student. "The purpose of making this tech available," said Senior C/S Int, "is so that ever)" receives the full gains available from every level on the Grade Chart."

Mr. Mithoff then gave a vital message on the training of auditors and Technical Training Films. "With the path LRH laid out on

continued on page 6

Executive Director International, Mr. Guillaume Lesèvre, was the master of ceremonies at the Los Angeles Auditor's Day event.

Mr. Ronnie Miscavige, Marketing Executive International, briefed the audience on miraculous broad public wins and released the new Research & Discovery Volume 3.

Senior C/S International, Mr. Ray Mithoff, spoke to the Auditor's Day audience about the local of LRH materials now available to the student auditor and the vital necessity of being a trained SCIENTOLOGIST.

Auditors are the winners!

There were over 6,000 SCIENTOLOGISTS in attendance at this year's Auditor's Day event held at the Shrine Auditorium in Los Angeles. At the event, Executive Director International awarded the top auditors of Southern California for their high production of Well Done Auditing Hours and standard technical application.

INTERNATIONAL SPEAKERS HONOR PAC AUDITORS

continued from page 5

the Grade Chart, and the precision of the technology, there has long since been no doubt that one can achieve higher states of being and spiritual freedom. With the tech materials we have now, the only variable has been

the auditor himself. That means having enough auditors and holding a precise standard in the quality of training.

"Over the past several years we have had a constant push to upgrade the quality of auditor training around the world. This is why we have placed so much energy into providing all of LRH's material to you, unaltered and exactly as he gave it. And in

present time, following in LRH's footsteps is easier than ever."

A Wealth of Technical Materials

"Look at what is now available to you. Today you have modern course packs, with all the material laid out in the exact right sequence for study. That wasn't always the case. Just ten years ago, it wasn't unusual for you to end up

in mimeo files, searching for the issue listed on your checksheet!

"Today, we have all of LRH's books available, each one verified as totally on-Source and complete, with glossaries and indexes. That wasn't always the case. Just half a decade ago, many of the books were incomplete, missing whole chapters written by LRH or which had unintentional alterations due to mis-transcription.

"Today, you have over 1,000 of LRH's lectures available on cassette. You can hear what LRH is

saying! And you now have transcripts, so if there's a word you don't get, you can see what it is and look it up in a dictionary. That wasn't always the case.

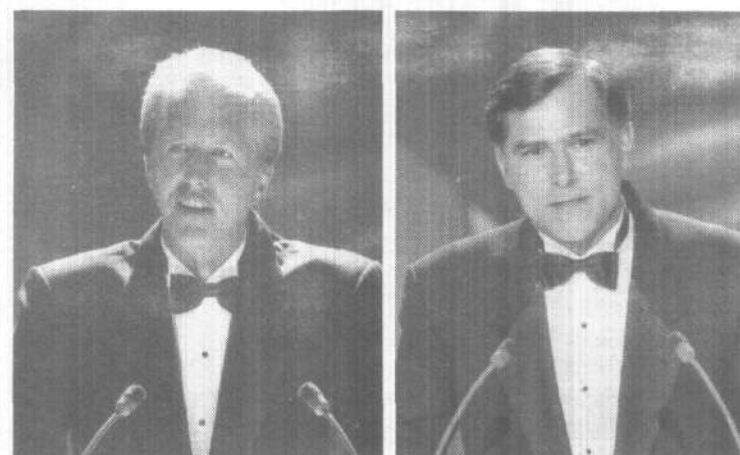

"Ten years ago, most orgs didn't even have the tapes that were listed on your course checksheet! And if you could find the tape you wanted, the quality was so poor you were lucky to hear it at all.

"Today, you have course-rooms with a precise guideline of standards for optimum study and fully set up with training aids.

Auditors are the winners!

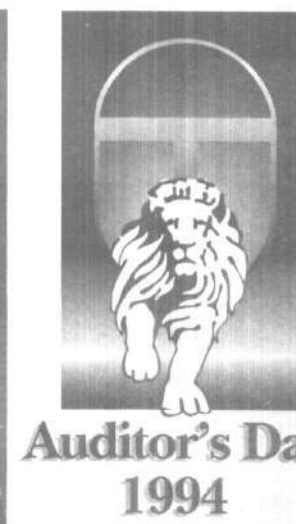

The top Sea Org auditor from AOIA, Dan Osborne (above).

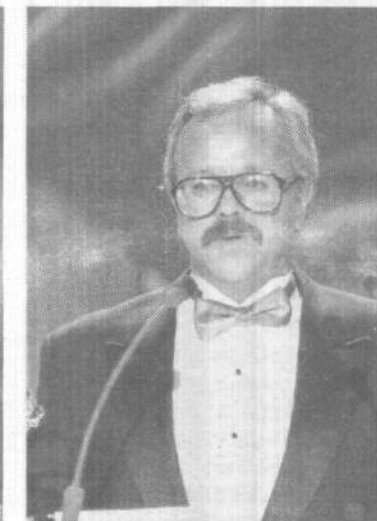

The top co-audit team from Orange County Org - Chris Briceno (above left) and Steve Peabody (above right).

The top producing CELEBRITY CENTRE auditor, also the highest producing individual auditor in the world - Class VIII Angie LeClaire (above).

Top Class V org auditor - Mary Louie from Orange County Org (above).

Wayne Miller - top producing mission auditor (above).

The top field auditor - Nancy Naugh (above).

World's Top Auditors Announced at Flag

At the International Auditor's Day Event held at Flag, ED Int, Captain Guillaume Lesevre announced the top auditors in the world. Pictured above from left to right are top Sea Org auditor, Use Koertel from AOSH Europe; top mission auditor, Paul Matsumoto from River Park Mission in

California; number one field auditor, Bruce Gibson from South Africa; Executive Director International, Captain Guillaume Lesevre; Chairman of the Board Religious Technology Center, Captain David Miscavige; Senior C/S International, Commander Ray Mithoff; top

CELEBRITY CENTRE auditor and top producing auditor in the world, Angie I Allaire from CELEBRITY CENTRE International; and top Class V org auditor Masumoto Tsuyoshi from Tokyo Org in Japan.

were taking to improve conditions in the town. The church agreed and provided materials on what they were doing. The resulting article commended the church's actions, stating, "You may see members of the Church of SCIENTOLOGY at the mall, selling pamphlets designed as tools to address problems such as child abuse, crime and substance abuse. The international church has launched a bold new program to activate 50,000 volunteers around the world this year to drastically reduce these crimes."

Moscow

The senior SCIENTOLOGY executive in Russia, Walter Kotric, delivered a lecture recently at the General Hospital in Moscow which services top government personnel and diplomats. He spoke to over 60

doctors and surgeons who wanted to know all about DIANETICS technology. The director of the hospital introduced him as one of the key people responsible for bringing LRH's tech to Russia.

In his introduction the doctor said that he had heard only good news about DIANETICS and what it can do for Russia. The 2-hour lecture on DIANETICS covered such things as the importance of silence during

operations and the effects that noise in the operating room has on patients. The lecture made such an impression on the heads of the hospital that the director told the audience, "I am certain that

in the near future the book *Dianetics* will be our Bible." Fifty of the doctors picked up copies of *Dianetics* that day and originated that they wanted to get trained up as BOOK ONE Auditors.

International News in Brief

Saint Hill Manor

Auditor's Day was held in the Great Hall of Saint Hill in England, home of the original

SAINT HILL Special Briefing Course. In addition to awards and acknowledgements for auditors, group processing was conducted on the audience and a demonstration session was given on stage. Those attending were revitalized on getting trained, with 48 people given technical individual programs to begin on courses immediately following the event.

Russia

The Ministry of Health of Russia has issued a license for the Detoxification Program by L. Ron Hubbard to Human Detoxification Services International (a non-profit corporation). This represents a full acceptance of the Detoxification Program and authorizes the delivery of the pro-

gram and the training of doctors on its technology within the territory of the Russian Federation. This is the first official government acceptance of LRH's PURIFICATION® tech in the world, and opens the door to broad delivery of the program in Russia.

Lesotho

This small, landlocked nation located in Southern Africa, celebrated the end of 23 years of military rule last year with a new government elected by popular vote. One year later the inhabitants of Lesotho have another reason to celebrate - SCIENTOLOGY technology is now being implemented in this country by a dedicated team of volunteer ministers! The volunteer ministers, from South Africa, have been pioneering

Scientology Handbook seminars for members of Lesotho's department of education. Their newly formed SCIENTOLOGY study group is now meeting regularly while Radio Lesotho promotes their work with weekly public service announcements.

New Haven

The *Scientology Handbook* has had a tremendous impact in New Haven, the capital city of the New England state of Connecticut. Volunteer ministers from the Church of Scientology there began handing out *Scientology Handbook* booklets at a local mall. It wasn't long before their activities came to the attention of the local newspaper. A reporter requested to do a story on the actions SCIENTOLOGISTS

Now Playing on the SHSBC at ASHO!

Training Drill Instruction Film #6 Use of a Doll in Auditing and TRs

If you've ever had terror stomach trying to do something new, realize you were not drilled. It doesn't matter how impossible it seems, drilling will overcome it. All flubless auditors got that way by drills, drills, drills. That is what sets a perfect auditor apart from all the rest.

One Class VIII Auditor who saw the new LRH film *Use of a Doll in Auditing and TRs* had this to say about the effect the film had on her own auditing skill, "If you've ever been nervous in session, watch TR 6 and drill some more. With thorough drilling and a good coach I became far more confident in session. It was like magic, and my pes noticed the change! The film shows you how to do it right."

Before the arrival of *Use of a Doll in Auditing and TRs*, students had no way of seeing how standardly executed CCH commands looked so they could be certain they were doing each command right - including clearing the commands. And if they were wrong, then it was the pc who suffered.

There are a million ways you can do these very precise auditing commands wrongly. There is one right way, and you see it in *Use of a Doll in Auditing and TRs* and nowhere else.

Before Technical Training Films like this one, auditors had no way of telling whether they were doing things right or wrong, and there went the hope of 100% STANDARD TECH.

One Supervisor said that drilling has become the password since showing this film to his students, "I am a Supervisor and since this film started playing in our Academy drill, drill, drill' has become the password with me. If a student doesn't have the skill down, we just get him drilled until he is flawless."

With Tech Films it is like having Ron right there in the classroom with you, showing you how it is done.

You come out with unshakable certainty. And your auditing will show it - eight away.

Use of a Doll in Auditing and TRs is now showing on the SHSBC or in an Academy classroom near you. If you aren't enrolled on technical training yet - hurry and get started right away. You need the tech to handle life and without it, you'll never make it to full OT.

INTERNATIONAL SPEAKERS HONOR PAC AUDITORS

continued from page 7

made on this in recent years.

"And as you can see we constantly work to improve such with better organization and new programs to make more auditors.

The Greatest Revolution Ever

"However, the greatest revolution in auditor training ever, was the development and use of Tech Films. Often you will hear us talk about these films and why they are so important and the reason LRH developed them. There are some parts of SCIENTOLOGY technology that can only be communicated adequately through audiovisual means.

"LRH realized that he would not always be available to train auditors per-

sonally on the exact way auditing was to be done. His solution was modern training films.

"In the late 1970s and early 1980s LRH analyzed each individual component of TRs and metering and wrote a film for each one. Those are the basics which if applied make all of the other parts of auditing work! You can imagine telling someone a processing command. He may be able to repeat it back to you but without having a clue as to how it should be said - TRs - or what to look for - the meter phenomena - it just won't work.

"We have been working to bring all of these films to you, exactly as LRH instructed. We take the production of these films very seriously as we know they are the way we can hold the standard of tech for SCIENTOLOGY now and in the future.

"In the past year, many training films were released. In June this year, four new

focus on success

FOCUS

Field Auditor's Practice Booms

"The key to being a successful auditor is basics."

Marcy Brown is a permanent Class VI Auditor and a Clear who has been in SCIENTOLOGY 11 years. She had no training at all prior to starting the SHSBC, but while on it started auditing for a local field group. After completing the SHSBC she enrolled on the Class VI Internship and has since started her own field group.

"The week I completed the internship my field practice really started booming. I definitely would not consider changing to any other job.

"The key to being a successful auditor is basics. My basics had to be totally in. I can take anyone in session. The Senior C/S at ASHO was ruthless on the standard that had to be met in order to graduate the internship. I was crammed and crammed until I had no doubts whatsoever on my application of the tech.

"After completing the internship my volume of pes increased beyond what I could handle alone. Two and a half months ago my husband quit his job to do the PURIFICATION RUNDOWN® C/S Course and start the Class VI Internship himself so we could deliver even more.

"I decided very early on the SHSBC to be a full time

auditor. LRH's purpose for the Briefing Course was to train people up and become full time auditors. I can't imagine being a Class VI and not auditing.

"I went to I HELP and asked, 'How do I do it?' I kept my comm line in with them and utilized their help to get started. I got one pc and then I started to procure more. I HELP has project orders you can follow to get going which makes it easier.

"I encourage people to jump in and start. There are many tools you can utilize. Just get a pc and start. There is no shortage of people out there who could use auditing!" I

The Best Job in Town

He has the best job in town - he's a field auditor!

Drew Johnston, New OT VIII, graduate of the, SAINT HILL Special Briefing Course and Class VIII Auditor has been operating a field group since 1981 with his wife Dede (who is also a New OT VIII, SHSBC Graduate and Class VIII auditor).

"I have the best job in town," said Drew. "I'm a field auditor. I've had innumerable wins as a full time auditor helping my pes to free themselves of their aberrations, fixed ideas and misconceptions on what stops them from achieving more in life. I'm also learning new things even day and expanding my command of skills that will make me a better person and a better leader.

"With the tech I learned on the Briefing Course, I can save peoples marriages, debug business problems, help people recover from injuries, illnesses, disputes and interpersonal problems. Using LRH's tech, these difficulties and problems get handled, the tone level rises and people get a whole lot happier.

"Last week for example, I helped a man who had been off THE BRIDGE for 14 years. He cognited for one and a half hours, and wrote a 1,500 word success story.

A lady, after getting only two BOOK ONE sessions, felt that her life has been turned around, her marriage saved and business career expanded. The stories go on and on. That is the power of the tech in USE." I

Three Reasons to Get Trained

"There are three different reasons for you to get trained.

"One, to be a professional auditor and to work at it in life.

"Two, to be an auditor so that you can help your friends and associates.

"And three, to help yourself gain the highest attainments possible.

"If you have not yet trained as an auditor, do so now. If you are already trained as an auditor, get your tech updated and your application flawless.

"Your first dynamic, your family, your group and all dynamics are depending on your being a trained auditor."

Go to ASHO or your nearest Class V organization to see die trailer for die fantastic new LRH Tech Film, *Use of a Doll in Auditing and TRs*.

ON SUCCESS

Top Field Staff Member Credits Briefing Course with Success

"The Briefing Course was my education in life."

Steve Besio is a graduate of the SAINT HILL Special Briefing Course at ASHO. He is a full time FSM for the Flag Service Org. FREEWINDS, International Association of Scientologists, Advanced Organization Los Angeles and ASHO. He was the top field staff member for both the Ship and FSO this past year.

Steve's knowledge of life allowed him to help others. "It gave me my SCIENTOLOGY education. It gave me the full understanding of SCIENTOLOGY necessary to handle anything I run into in life. For example, the abilities I've gained from the Briefing Course have helped me to help others solve their problems. I know what's going on no matter what their life situations are - whether business, second dynamic, case or anything else. It's knowledge that helped me help others to change and expand.

"The Briefing Course was my education in the broad totality of life. When I listen to somebody, I can immediately think of the LRH data that apply to his situation and point these out to the person in order to help. Because of the Briefing Course, this ability is an inherent part of me."

Steve credits the Briefing Course with his success. "It gives you an advantage. Besides enabling you to embark on a career as an auditor, it is a vital education that every SCIENTOLOGIST needs." •

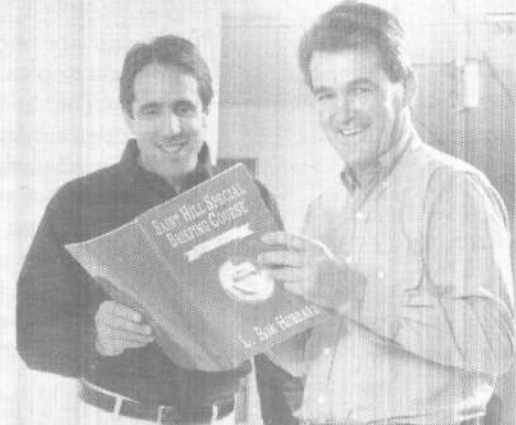

Hundreds of Hours Co-audited on Briefing Course

"It's like going to a university except we're going to do something to really help and handle people."

The SAINT HILL Special Briefing Course is the champion course for co-auditing. No other course covers such a broad range of rundowns and grades. Randy Raddatz and Michael Daly are two Briefing Course co-auditors who have now audited hundreds of hours on each other. Both Randy and Michael are Clears and on Level 0 of the SHSBC.

Randy: There's a huge difference in life before the Briefing Course and afterwards. It contains such an immense amount of knowledge about life. Once you finish all the tapes and material, you have total certainty. You *haveto* do the Briefing Course to have that. (Once you've gone through the course you get a vastly different viewpoint. There's a lot of OT data on the course and there's *nothing* about life that LRH doesn't cover in these materials.

Mike: When you are co-auditing, you see exactly how the tech works. Randy and I have audited a lot of different types of rundowns, including the Expanded (irades). When you study the LRH data, you really cognite on why it works and see exactly how it applies to your own life. And then you get to see it in session and hear your pc's wins. It's a whole different slant you hadn't thought of - a new viewpoint that you wouldn't have had if you hadn't audited the process.

On the Briefing Course you get the chance to do so much auditing, you gain a lot of certainty in the tech and in your ability to handle anything that comes up on a case.

At work I have to deal with people. I can see their overts, withholds, misemotion, their tone level. I have to be able to communicate with them and I can. I understand why people act the way they do and I can *handle* them rather than make them wrong. Life has become very simple. That's what the Briefing Course does for you. I

Briefing Course Graduate Becomes Full Time Auditor

"It's easy to make a living as an auditor!"

Ray Mosher, Clear, has been a full time field auditor since last year. A Class IV Auditor before he started the SHSBC, Ray began auditing full time right after he completed Level A of the SI I SBC.

"Doing Level A gave me the confidence I needed in order to start auditing full time," Ray told THE AUDITOR. "I started auditing people on processes I was certain I could apply. As I progressed through the Briefing Course, my certainty expanded and I was able to audit a broader range of processes. The key thing was to get into communication with people and not have any back off on helping them. Once you've helped a person they'll reach for more auditing and will tell others. Then you've started. In fact, it's easy to make a living as an auditor - there are tens of millions of potential pes in the Los Angeles area alone!"

Ray wouldn't have wanted to do the Briefing Course anywhere other than ASI I). "The SHSBC I/C here, Chris Montgomery, keeps you rolling no matter what comes up," he said. "The entire intention of the team here is to make you a competent graduate of the course rapidly and no matter what! The Supervisors are tough and the Academy here at ASHO is one of the tightest ships I've ever experienced.

"It's the biggest Briefing Course in the world because it's very standard. You really learn what it means to audit. You become an expert, extremely professional. You get the FULL technology of how to get people through objectives, SCIENTOLOGY (irades, NED® and much more. You can repair any case."

Ray related the story of a young boy he recently audited who's life turned around as a result. "He was 7 years old. He'd had an extremely unstable family life - his parents had divorced and he was in complete apathy. The change in him was dramatic as a result of the auditing and he came way uptone."

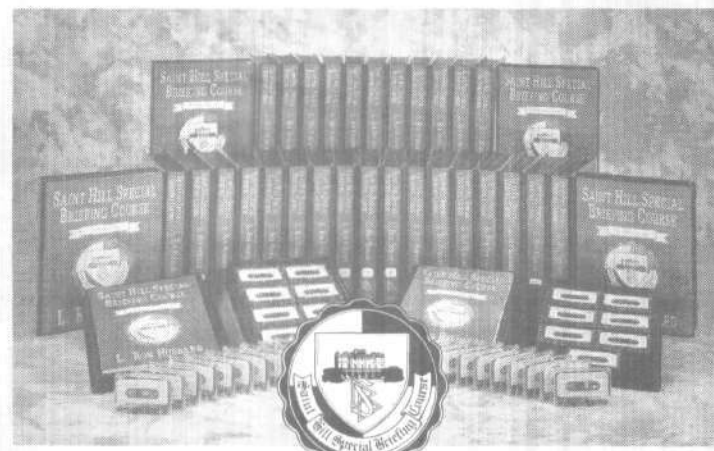

Ray stressed the importance of applying SCIENTOLOGY in life, "Training gives you the tech on how the mind operates. Through training you can learn how to handle anyone. People get so involved in life that they forget it is simply an agreed upon game. You can unravel it as a trained auditor. If you want to know how to survive in life do the SAINT HILL Special Briefing Course. LRH created this course for us. You've got to learn the tech - all of it." •

JOIN RON FOR THE MOST DRAMATIC PERIOD IN SCIENTOLOGY'S HISTORY

"Hardly any HCO Bulletins mirror this period. It is all on tapes. This has been a fantastic and dramatic period in the history and development of Scientology and I'm proud that it came off."

- L. Ron Hubbard
HCOB Tape Coverage of New Technology

Join Ron for each of his SHSBC lectures. Hear each breakthrough as it occurred. Listen to Ron talk about man's past on this planet, on religion, education and study, different cultures, art, music, the states of Clear and OT, and much more. 437 lectures in all, packaged in 33 sturdy binders, each complete with transcripts and glossaries. The reproduction is so clear, it is as though LRH were speaking to you directly.

FOR AN UNSHAKABLE CERTAINTY ON THE TECH TO HANDLE LIFE -
LISTEN TO THE SAINT HILL SPECIAL BRIEFING COURSE LECTURES.
Available from the American Saint Hill Organization or in your nearest Church of Scientology bookstore.

YOU CAN ALWAYS WRITE TO THE EXECUTIVE DIRECTOR INTERNATIONAL

"The essence of good management is CARING what goes on."

— L. Ron Hubbard

from HCO® PL 10 November 1966 Admin Know-How Series 6
GOOD VERSUS BAD MANAGEMENT

The Executive Director International likes to hear from you. Your views, ideas, wins and even any difficulty you may have, are all of concern to him.

He will help you with any matter you care to write him about and will provide you with the exact Source reference by L. Ron Hubbard on that subject.

The Executive Director International follows LRH's long-standing tradition of maintaining wide-open the communication lines of SCIENTOLOGY. He operates on the LRH datum that "to command is to serve and only gives one the right to serve." (HCO PL 12 Sept 67, POST. HANDLING OF). He is

there to help get every SCIENTOLOGIST up THE BRIDGE.

The Executive Director International cares. You are appreciated. Your communication is valuable and will be given swift and on-Source attention.

Write to:

Guillaume Lesèvre
Executive Director International
6331 Hollywood Blvd., Suite 1008
Los Angeles, California 90028 USA

or put your message in the special message box at your local organization. The org LRH Communicator will see that your letter is forwarded to the Executive Director International within 24 hours.

ASHO Tours United States Orgs

Event inspires

SCIENTOLOGISTS to get moving on THE BRIDGE

Watch in your area for the American Saint Hill Organization's Briefing Course Tour featuring speakers from the Sea Organization.

The tour has had an incredible effect on people's lives.

One woman had been seriously stalled on THE BRIDGE at Clear before attending the tour and wasn't doing well. She decided to get rolling and arrived at ASHO to start the SHSBC. Six weeks later she had completed most of Level A of the Briefing Course, had done several FALSE PURPOSE RUNDOWN® auditing forms and her Solo Course. She was moving up THE BRIDGE for the first time in years and really winning in life!

Special Guest Speaker

One of the guest speakers on the ASHO Tour is herself a Briefing Course student.

Amanda Ambrose, on New OT VII, is a renowned singer and agreed to join the tour to tell other SCIENTOLOGISTS about her wins on the Briefing Course at ASHO.

Amanda wanted to share her message with all Auditor magazine readers.

Amanda: "As a Briefing Course student myself, I was glad to tour so that I could tell others what I know is true: that the SAINT HILL Special Briefing Course should be done, should be done full time and should be done NOW."

Amanda Ambrose

"It is now time for us as a group to move in and clear the planet."

"Before my training, the thing that I was looking for in life was spiritual freedom. Auditing has made me a spiritually free being. The training on the SHSBC has given me the technology so that I can help others achieve spiritual freedom. And, that is the dignity of life."

"I tell SCIENTOLOGISTS to do THE BRIDGE just the way that Ron says: co-audit to Clear. That way you get the FULL gains of THE BRIDGE. And you can help others go up THE BRIDGE as well."

"When you get to OT you expect to be able to contribute in a manner that is comparable to your power and perception as an OT. With training one can do this."

Watch for Amanda and an SHSBC tour in your area. •

SPECIAL ANNOUNCEMENT
See the insert with this issue of THE AUDITOR for the up-coming tour event schedule to see when the event will be in your area.

How did you get into SCIENTOLOGY?

Every SCIENTOLOGIST has a story to tell when it comes to their own introduction to DIANETICS and SCIENTOLOGY.

If you have a story to tell, send it to THE AUDITOR Editor so we can share your win with others. Here is this month's best story.

Mike Frazier - A SCIENTOLOGIST since 1971, Clear, completed with OT Preps and ready to start New OT I, currently on Briefing Course Level A

I lived in Boise, Idaho and was working as a research agronomist (agronomy is the study of crops, fields of plants). A friend of mine loaned me the book *The Fundamentals of Thought*. I read part of the book and couldn't understand why I'd never heard of L. Ron Hubbard. I decided I needed to meet him, and find out more about SCIENTOLOGY.

"I started calling around and finally got hold of a SCIENTOLOGY mission in Sacramento, California. They told me to come for a course on communications. I hitchhiked 1,000 miles from Boise to Sacramento and started the course. I've been a SCIENTOLOGIST ever since."

"The way I got onto the Briefing Course was that I saw a Registrar who had me listen to the LRH lectures from the *State of Man* series. I was so inspired by that I just decided to put aside all counter-intention and route onto the Briefing Course."

"Because of the SHSBC I've become completely certain of my abilities to use the tech."

Your Route to Clear and Beyond Starts Here!

SPECIAL ANNOUNCEMENT

Get up
THE BRIDGE*
faster with
the 10th
Anniversary
IAS Award!

MUCH HAS BEEN ACCOMPLISHED

SINCE THE INTERNATIONAL ASSOCIATION OF SCIENTOLOGISTS™ WAS FORMED IN OCTOBER OF 1984. THROUGH THE ACTIONS OF THE ASSOCIATION AND ITS MEMBERS, THE SCIENTOLOGY* RELIGION HAS EXPANDED MORE IN THE PAST DECADE THAN IN ANY OTHER TIME IN OUR HISTORY.

AS A TRUE GROUP, UNITED BY THE COMMON PURPOSE TO BRING FREEDOM TO ALL MANKIND, WE ARE REVERSING THE DWINDLING SPIRAL OF THIS SOCIETY AND OUR FUTURE LOOKS BRIGHTER THAN EVER.

IN CELEBRATION OF 10 YEARS OF TRIUMPH IN ACHIEVING THE AIMS OF SCIENTOLOGY, ALL IAS MEMBERS ARE BEING PROVIDED WITH SPECIAL BENEFITS. THESE BENEFITS HAVE THE PURPOSE OF SPEEDING YOUR PROGRESS UP THE BRIDGE TO FULL OT*

SPECIAL 10TH ANNIVERSARY IAS MEMBERSHIP BENEFITS

ALL IAS MEMBERS:

The 20% IAS membership discount has been increased from 20% to 25% for all services and materials* for the remainder of 1994.

ALL LIFETIME MEMBERS:

As a Lifetime Member you have shown your dedication to the accomplishment of the aims of SCIENTOLOGY, and in acknowledgement of this you are awarded the status of Founding Member by the International Association of SCIENTOLOGISTS.

As a Founding Member you are now entitled to a 30% IAS member discount on all services and materials for the remainder of 1994.

If you are not already a Lifetime Member, become one now. Take advantage of this special opportunity to

become a Founding Member and receive your 30% discount on all services and materials for the remainder of 1994.

ACT NOW AND TAKE ADVANTAGE OF YOUR AWARD

I If you're not a Lifetime Member, become one now. Contact the Membership Officer at ASHO, phone 213-953-3250.

I Sign up for your next Grade Chart action or course now, and get started at once.

I Complete your LRH™ library. You need to know all of the tech to make it to full OT.

I Give others greater wisdom with LRH books, lectures and materials for Christmas.

MOVE UP THE BRIDGE FASTER WITH THE 10TH ANNIVERSARY IAS AWARD!

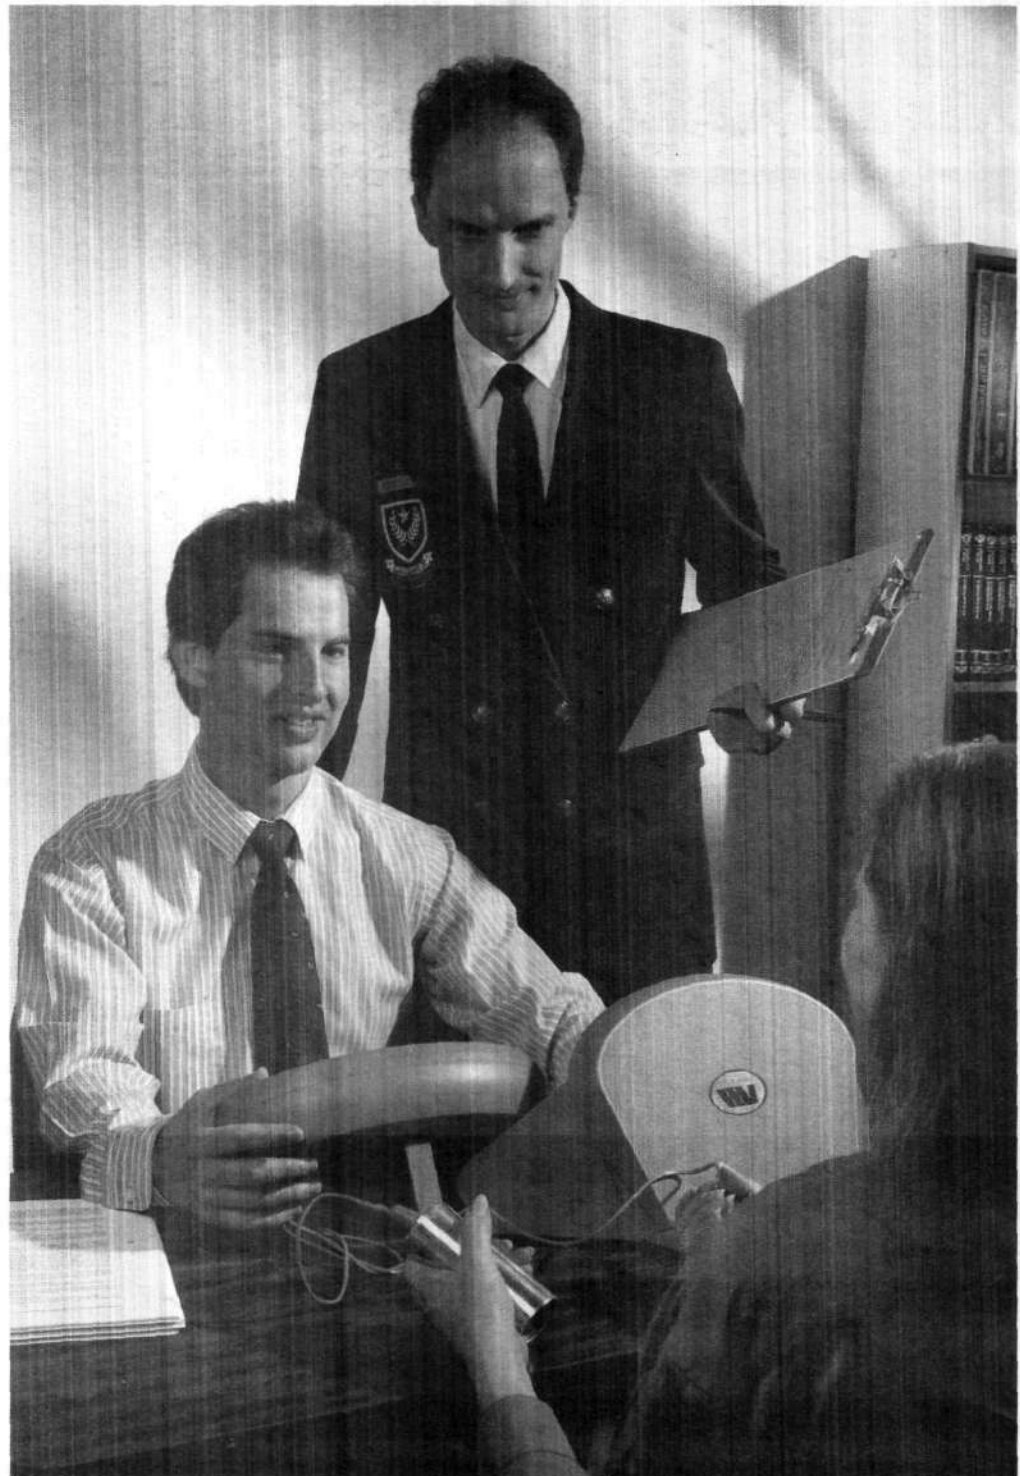

* This discount does not apply to non-membership items such as some basic books, cassettes and some insignia.

Also in this insert:

- How to use the IAS Award to take your next training step.
- Who to Call at ASHO-an easy listing of commonly needed services.
- A special Books and Materials Order Form for you to take advantage of the new IAS Award rates.

Do the SAINT HILL Special Briefing Course

**You could be
through your first
level of the SHSBC
in 3-4 weeks!**

The Saint Hill Special Briefing Course consists of 16 individual checksheets (Levels A-P). Each takes an average of 3 - 4 weeks full time.

Each Checksheet teaches a specific auditing technology and skill, has its own end result and its own certificate.

Students on the Saint Hill Special Briefing Course can co-audit up the Grade Chart to Clear and get the Solo Courses for free.

The following packages provide you with the ideal training program to become a Class VI auditor: the Auditor Elite Training Package, the Professional Scientologist Package, the Saint Hiller Package and the Career Scientologist Package

for your Power Processing!

ASHO Specializes in Helping Clears Reach OT Fast

ASHO provides all the auditing services necessary for anyone to make it all the way to Clear. ASHO delivers POWER Processing for those who didn't go Clear on NEW ERA DIANETICS auditing. We deliver EXPANDED DIANETICS™ for preclears programmed for the service. And we deliver CLEAR CERTAINTY RUNDOWN™ counseling to verify the state of Clear. Contact the highly trained consultants at ASHO today and speed your way to Clear and beyond.

Come to ASHO for all your auditing.
Call the Registrar today at 213/953-3250.

"A chronological study of materials is necessary for the complete training of a truly top-grade expert in these lines. He can see how the subject progressed and so is able to see which are the highest degrees of development. Not the least advantage in this is the defining of words and terms for each, when originally used, was defined in most cases, with considerable exactitude, and one is not left with any misunderstandings.

It is for this reason that the Saint Hill Briefing Course checksheet should consist only of chronological materials."

—L. Ron Hubbard, 1973.
