

ABC Flash Cards

To use, print page 2-14 of this document onto white card stock paper. Then laminate the papers and cut them in half down the middle to make ABC cards. I also recommend using a rounded-corner cutter so the corners aren't pokey. These can be bought for around \$6 at Hobby Lobby.

This free printable was brought to you by www.tracystreasury.com

These ABC cards are based on the letter units from My Father's World Kindergarten, and are not intended to replace those from MFW. These are intended for personal use as spare set for those who have purchased the MFW Kindergarten curriculum.
